Biography	Photo
<p>Dr.Datchakorn Tancharoen received the B.Eng. and M.Eng. degree from Chulalongkorn University, Thailand in Electrical Engineering with a focus on Digital Signal Processing and the Ph.D. from the University of Tokyo majoring in Electronic Engineering. He was awarded the National Science and Technology Development Agency (NSTDA) Scholarship for the master degree and the Japanese Government Scholarship (MEXT) for his doctoral degree in Japan. Currently, he has led many projects on innovation and technology. During his term in Japan, he was the President of the Thai Students Association in Japan under royal patronage (TSAJ) and the Chairperson of IEEE student branch in the University of Tokyo. In Thailand, he also acts as the Chair of NSTDA Scholarships Society which includes more than 1000 experts on Science and Technology.</p>	
<p>Dr.Datchakorn created the valuable pioneer projects for many organizations. He is the key person to initiate TSAJ, ASEAN Youth Network in Japan (AYNJ) and Japan Alumni Consulting Center. After he came back to Thailand, he began the 1st batch of Thai-Nichi Institute of Technology and was assigned as an Assistant President for IT and International Affairs. Later, he came to join CP Group and Panyapiwat Institute of Management (PIM) to launch many projects about engineering and technology. He is also the founder of Digital Technology Center, Engineering and Technology Innovation Center and Thailand Sports Chanbara to motivate the young talents. Currently, he is working as the Director of Innovation Center and the Vice Dean for research and international relations, Faculty of Engineering and Technology. His research interest includes digital technology, smart industry, innovation and technology management.</p>	<p>Logo of the Institution</p>
