Address	Institut FEMTO-ST, 15B av. des Montboucons	City, State	Besancon
Postal Code	25000	Country	France
Phone	+33363082410	Email	labachel@femto-st.fr

Biography	Photo
<p>Michel de Labachelerie has been scientist at the French National Center for Scientific Research (CNRS) since 1982. His research was first dedicated to high-frequency-stability semiconductor lasers at Orsay University. He has been visiting researcher at Tokyo Institute of Technology between 1993 and 1995, where he switched to the field of MEMS technologies and founded the LIMMS (French-Japanese laboratory at the University of Tokyo). Then he obtained a position of CNRS Research Director for the development of MEMS devices in a laboratory of Besancon. In 2004, he switched to research management by creating the FEMTO-ST Institute in Besancon (comprising now about 700 staff members) and has been its general director for 8 years. He has also been coordinator of the national Network "Renatech" of French academic nanofabrication facilities since 2004. He has been Vice-President in charge of research at the new UBFC federal university in 2016-2018. He is also member of the CNRS headquarters in Paris since 2012, in charge of Research Infrastructures for Engineering Sciences since 2019.</p>
